

Johnstone Names Office Manager

Susan Lewandowski

Susan Lewandowski has joined Johnstone Supply as office manager. In her new position, Susan will be responsible for the company's accounting, billing, information coordination and other office management functions.

Since 1988, Susan has held office management, purchasing and administrative positions at several local companies. Her experience includes four years as vice president of an environmental services firm.

Susan is a graduate of Nazareth College, where she earned a BS degree in business administration and accounting. She has also taken graduate courses at St. John Fisher College. Away from the office, the Webster resident cares for her five dogs.

ABR Adds Burnham Boilers

ABR Wholesalers has added Burnham boilers to its product line.

These boilers all carry the Energy Star® logo. These days, that logo is a good sales point, and it is backed up by plenty of advertising.

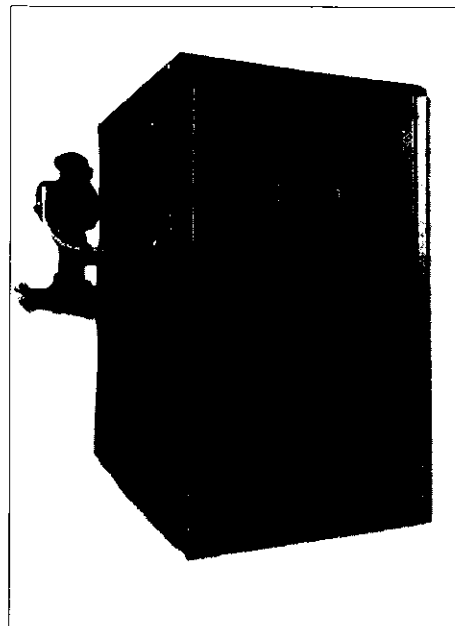

All major components are made in the U.S. All heat exchanger castings are produced in Burnham's own domestic foundry.

ABR has added this broad line to help you sell into any situation. The line includes hot water or steam, oil or gas fired, cast iron or steel.

Burnham also offers indirect water heaters, cast iron radiation, PEXe radiant heat piping and controls.

This lets ABR offer everything from high-end radiant floor systems to basic retrofit boiler installations.

ABR Vice President of Marketing **Glenn Jones** says that dealer meetings will soon be scheduled to give you a hands-on introduction to the line. Installation and service training will also be provided for technicians. Watch these pages for the dates of those dealer meetings and training events.
