

ABR Adds Rheem Water Heaters

Rheem water heaters in ABR's new showroom.

In response to customer requests, ABR Wholesalers has added Rheem residential and commercial water heaters to its growing line of products.

Here's a sneak peek at ABR's new showroom. They'll have an open house when all the work is complete.

The new line includes Rheem's new Guardian systems that meet the new ANSI safety standards. To meet these standards, the flame cannot escape from the water heater, even if flammable materials are spilled on the floor and seep under the heater.

Stop at ABR for a demonstration and brochure, and to look over their showroom renovations.
