

ABR Joins Rheem's Universal Parts Program

ABR Wholesalers has joined Rheem's Universal Parts Program. The local company's participation was launched officially at its annual open house on September 27 (see page 8).

It is noted on the back of the 250 page Universal Parts catalog that the line includes factory-approved replacements for Rheem®, Ruud® and WeatherKing® equipment and universal replacements for most

other brands.

The universal replacements are sold under the TripSaver® after-market replacement part trademark. The catalog also lists many major parts brands as well.

Besides the big supply of Universal Parts products ABR carries, the local wholesaler also has access to the company's state-of-the-art distribution facility and same-day/overnight shipping is available.

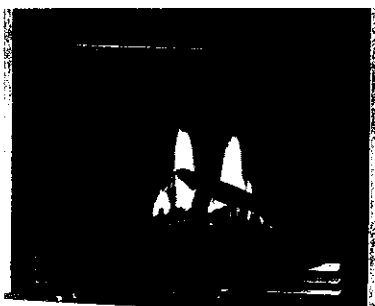

Plan Now For The 2001 ACCA National Conference

There's one sure bet in Las Vegas. That's that you'll come home smarter if you attend the ACCA National conference. (How rich you come home is up to you.)

The annual conference will be held at the Rio All Suite Resort & Casino in Las Vegas from Monday, February 26 through Thursday, March 1.

There are always plenty of great seminars on a wide range of technical and management subjects. So, you know the learning portion of the trip won't be a gamble.

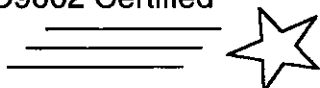

You'll be getting information from ACCA National and through the chapter, but we are giving you this heads up so you can begin planning and budgeting.
