Patented heat exchanger constructed of stainless and aluminized steel to provide maximum corrosion resistance. Low profile design is lighter and easier to handle, and leaves room for optional equipment. Energy efficient and quiet ECM 2+ motor. Improved cooling efficiency when matched with rated condensing unit and coil. Constant CFM. Dip switch settings for selectable cooling airflow. On-demand dehumidification terminal for improved comfort in cooling mode. Left or right side gas and electric inlet connections allow for a quick and simple change over. All models are equipped with flame sensor feature, an integrated board with humidifier and electronic air cleaner hookups. Insulated blower compartment, a slow-open gas valve, a specially designed draft inducer motor and blower motor make it one of the quietest furnaces on the market today. Cabinet is made of a pre-painted galvanized steel. Molded permanent filter. Easy door removal and replacement. Unit is compatible with single or two stage thermostats.

Accessories	Description
RXGR-C17B, 21B, 24B	Return Air Cabinets
RXGF-DA	Internal Filter Rack
RXGF-CB	Bottom Return Filter Rack
RXGF-CA	Side Return Filter Rack
RXPF-F01, 02	Fossil Fuel Kits

Warranty Information
Heat Exchanger - Limited Lifetime Heat Exchanger Warranty
Any Other Part - Five (5) Years
